

WELCOME TO BEECHES

Beeches is a four-bedroom residential unit where four students share the facilities within a warm, friendly environment.

There is a lounge where students can spend time relaxing, watching TV, playing games together, listening to music or completing their homework.

We have a modern, fully equipped kitchen with dining area in the lounge where we have our meals.

Students are supported in preparing breakfast and evening meals and are encouraged to help with domestic tasks.

Students are involved in planning healthy meals and shopping for groceries. Students also practise money management skills with their own pocket money.

All students have their own bedroom, where they can spend personal time. They are also encouraged to personalise their room with posters, pictures and items from home.

Students take part in group activities to help develop and build students' social skills. These include trips to the cinema, bowling, laser quest, gym, swimming and youth club and also themed celebrations, social group sessions within the unit.

Our staff members assist students in building on their existing life skills and developing new ones.

Staff encourage students to make choices within the weekly student meetings on activities, menus and daily tasks.
