

# Welcome to OAKS

Oaks is a residential unit that provides a positive caring environment for up to two students with complex needs.

Focus is placed on teaching communication and self help skills, emotional regulation and purposeful social interaction. Communication systems such as PECS and MAKATON are used.

Students receive individual support, promoting choice, communication, independence and learning of life skills.

Emphasis is placed on developing each individual's ability to manage personal care and participate in the local community providing a transitional step

towards a more inclusive life.
