

Welcome to Orchards

Orchards is a 6-bedroom residential unit for up to six students. Our aim is to provide a positive environment which enables students to achieve their full academic and personal potential.

Focus is placed on individualised support promoting choice and independence through daily life, activities and communal living.

Orchards provides a homely environment consisting of a lounge/diner, kitchen, 6 bedrooms, male/female bathroom facilities and a study area.

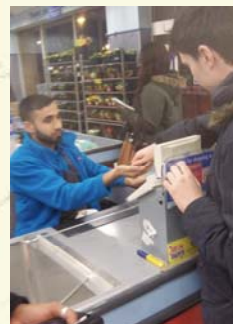

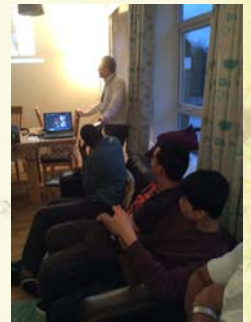

Students are supported to take ownership of their environment and make it their own.

Students are encouraged to take responsibility for keeping their rooms clean and tidy along with household chores suited to their ability.

There is a weekly student meeting where students share their views and plan their activities.

Students enjoy a range of both unit-based and community activities. Through participation in such activities, students are supported to develop and enhance their skill base to prepare them for adult life.

"I can do many things here, I can chill here, I can be with my friends."

"I love residential because I like playing here."

"It is good here because the staff are nice."
